**From humble begin-
nings to global acclaim
— our story is stitched
with purpose.**

SPRY Sports Corporation was founded in 2002 by three visionary leaders — Ghulam Nabi, Shamas Ghulam, and Nadeem Ghulam — with a dream of building a world-class garment manufacturing company in the heart of Sialkot, Pakistan.

What began as a small stitching unit has flourished into a comprehensive production powerhouse. Today, SPRY is recognized among the most progressive, innovative, and ethically responsible manufacturers in Pakistan, with a well-established presence in over 25 countries across four continents.

Specializing in activewear, sportswear, sublimation apparel, and gloves, we blend heritage craftsmanship with cutting-edge technology to deliver performance-driven, fashion-forward products. Our facilities are not only production hubs — they are centers of innovation, collaboration, and precision.

We believe our strength lies in a unique combination of people, process, and purpose. Every item we manufacture tells a story of hands-on skill, industry insight, and relentless dedication to quality. SPRY is more than a brand — it's a symbol of trust, creativity, and excellence.

A true leader does not build a company, he builds people who build the company.

The architect of SPRY's global journey.

SPRY Sports Corporation was born from the vision and determination of Mr. Ghulam Nabi, a pioneer who believed in the power of Sialkot's craftsmanship to compete on the global stage.

From the beginning, Ghulam Nabi emphasized values of integrity, hard work, and quality without compromise. His entrepreneurial journey began with limited resources but limitless ambition. Through persistence and commitment, he transformed a small workshop into a production facility that now serves international markets with pride.
